

**ADDENDUM 1 TO EXHIBIT 6**

**EXPLANATION OF RESPONSES TO SECTION III, QUESTION 3  
AND SECTION IV, QUESTION 5**

Among other documents submitted with the FCC Form 315 applications, the Applicants submitted a copy of a Master Agreement, dated December 3, 2009, by and among the Applicants, with exhibits omitted from the applications because they contain information that is proprietary or is not germane to the Commission's evaluation of the qualifications of the parties.

By this Addendum, the Applicants reference side letters to the Master Agreement, dated March 9, 2010 and April 26, 2010, regarding receivables and an NBC Universal, Inc. debt offering, respectively. These side letters are also omitted from the applications because they contain information that is proprietary or is not germane to the Commission's evaluation of the qualifications of the parties.

In the event the FCC desires to review any of the omitted material, it will be supplied to the Commission's staff. The parties reserve the right, in appropriate circumstances, to submit such information pursuant to applicable regulations which restrict public access to confidential and proprietary information.
