

## SPECIAL OPERATING CONDITIONS

The licensee will comply with all of the special conditions specified in the construction permit (BMPED-20070907ADR):

- 1 Pursuant to 47 CFR Section 73.7005(a) the permittee/licensee shall be subject to a holding period. From the grant of the construction permit and continuing until the facility has achieved four years of on-air operations, the permittee/licensee proposing to assign or transfer the construction permit/license to another party will be required to demonstrate the following two factors: that the proposed buyer would qualify for at least the same number of points as the assignor or transferor originally received; and that consideration received and/or promised does not exceed the assignor's or transferor's legitimate and prudent expenses as defined therein.

The licensee acknowledges and will comply with this special condition.

- 2 Waiver of the main studio rule, 47 CFR Section 73.1125, was previously granted in construction permit BPED-19980512MF to permit WRTJ to operate as a satellite station of WRTI, Philadelphia, PA.

The licensee acknowledges the continuance of this special condition. WRTJ will operate as a satellite of WRTI, and will share a main studio with WRTI at 1509 Cecil B. Moore Avenue, Philadelphia, PA as detailed in Exhibit 6.

- 3 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

The licensee acknowledges its responsibilities with respect to insuring radiofrequency safety. Procedures are in place to ensure radiofrequency safety as detailed in the *Environmental Statement* section of the *Engineering Statement* included in the instant application.
