**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Central Florida Educational Foundation, Inc. ("CFEF"), licensee of FM translator station W239BU, Channel 239D, Mount Dora, Florida. CFEF has a construction permit (BPFT-20121012AIO) to relocate W239BU to a new site, change city of license from Mount Dora, Florida to Orlando, Florida, change to Channel 292 and change the station to be rebroadcast. As a result of the channel change, the call sign of the translator changes to W292DZ, which is used hereafter. Exhibit A is a calculation of the transmitter power output for FM translator W292DZ.

There are no special operating conditions/restrictions listed on the W292DZ permit. However, CFEF states it will reduce the power of W292DZ or cease operation to insure persons with access to the site are not exposed to radio frequency radiation levels above the limits. CFEF also states that it will, in cooperation with other tower users, reduce the power of W292DZ or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

Based on the foregoing, it is believed that all conditions have been satisfied and W292DZ has been constructed in compliance with the Commission's rules.
