

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS

This exhibit is part of each Minor Change Application for stations AM stations KHVH, KIKI, and KSSK all of which are licensed to the principal community of Honolulu, Hawaii.. A multiple ownership analysis was prepared considering radio stations under present or proposed common ownership, time brokerage or joint sales.¹

Metro Market Study

The community of license, Honolulu, Hawaii, is in Lee County, which is part of the Honolulu, Hawaii Nielsen Radio Metro and thus all stations are geographically located in this Metro. Each station is designated "home" to this radio Metro. The number of stations owned by us in the Metro is not changing by any application.

According to the FCC's local ownership "tiers," in a Metro reported by BIA as having 30 or more, and 44 and fewer commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 7 commercial full-power radio stations, not more than 4 of which are in the same service(AM or FM) ii. These applications comply with the multiple ownership rules because only 7 of 41 full-power radio stations (3 AM, 4 FM) will be attributable to us

Interim Contour-Overlap Analysis

Because the principal community of this station and the communities of all commonly-owned or attributable stations with overlapping principal contours are located inside of a Metro, an interim contour-overlap analysis is not required.

Respectfully Submitted,

Troy G. Langham
VP, Technical Regulatory Affairs
22 November 2021

¹ None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement
