

Technical Statement

Noalmark Broadcasting Corporation

KMLK (Facility ID: 85169)

This Technical Statement and attached exhibits were prepared on behalf of Noalmark Broadcasting Corporation (“Noalmark”), licensee of KMLK, Channel 268A, currently licensed to El Dorado, AR. Noalmark herein proposes a minor change application to the facilities of KMLK to modify the transmitter site and change the city of license from El Dorado to Junction City, AR.

Overview

The minor change involves a change to KMLK’s city of license and transmitter site.

Modification of KMLK on Channel 268A from El Dorado, AR to Junction City, AR

Station KMLK (Channel 268A) at El Dorado, AR seeks to be modified to specify Junction City, AR as its new city of license. The proposed hypothetical site at 32° 56’ 10” North Latitude and 92° 37’ 29” West Longitude (NAD 27) for KMLK is mutually exclusive with the licensed facility of KMLK. This modification is also compliant with all the requirements of 47CFR §73.207 and 47CFR §73.315. Noalmark is proposing to implement this change at an existing tower site, tower registration # 1021128. The coordinates of the proposed application site are the same as the hypothetical allotment site.

The Application Site’s 70 dBu F(50,50) principal community contour covers 100% of the Junction City, AR community boundaries.

The remaining services map (Exhibit 4) demonstrates the loss area will continue to be well-served by more than 5 aural services.
