Re: Emmis Radio License, LLC  
Station KPNT (FM), St. Genevieve, MO  
Extension of Special Temporary Authority – IBOC FM Dual Antenna

Gentlemen/Ladies:

This request, submitted electronically *via* CDBS, seeks extension of Special Temporary Authority to operate in digital mode at the above-referenced FM radio station using separate antennas for analog and digital signals, pursuant to the FCC Public Notice (“*Notice*”) on *Use of Separate Antennas to Initiate Digital FM Transmissions Approved*, DA 04-712, released March 17, 2004. An STA was granted by the FCC on October 10, 2005 (File No. BDSTA-20050926AKI). The STA will expire on April 13, 2006. An extension for six months is respectfully requested.

Emmis Radio License, LLC (“Emmis”) commenced IBOC operations on or about October 15, 2005.

The operating specifications of the dual antenna operations conform to those set forth in the Public Notice, as follows:

- Transmitter power output for the analog and digital transmitters is:
  - Analog: 33.0 kW

Federal Communications Commission

April 11, 2006

Page 2

- Digital: 0.76 kW
- The licensed auxiliary antenna used for the dual antenna operation is located within three seconds of latitude and longitude of the main antenna at:
  - Aux/Main Antenna Coordinates: 38-13-10.0 N 90-35-44.0 W
  - Antenna C/R Elevation Data:
    - 563 meters AMSL
    - 369 meters HAAT
    - 336 meters AGL
  - FCC Auxiliary File No.: BXPB-20050920AEC

In addition, Emmis certifies that:

- the IBOC facilities conform to the iBiquity hybrid specifications in that both the digital and analog signals are transmitted within the spectral emission mask of a single FM channel;
- analog effective radiated power remains as authorized;
- the interim operation does not cause human exposure to levels of radiofrequency radiation in excess of Section 1.1310 of the Commission's rules and is therefore categorically excluded from environmental processing pursuant to Section 1.1306(b); and
- the operation does **not** include the use of interleaved antenna bays.

Emmis' technical representative to be called in the event of interference is:

- Sam Caputa
- Telephone: 314-613-7919

This request is being submitted electronically, with electronic payment of \$150.00 to cover the prescribed filing fee.

The appropriate certification with respect to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 853a is contained in the electronic STA application.

Should further information be required in connection with this request, please direct inquiries and correspondence to the undersigned.

Sincerely,

A handwritten signature in black ink that reads "Marnie K. Sarver". The signature is written in a cursive, flowing style.

Marnie K. Sarver
