

**Exhibit 12  
FCC Form 346  
Section 3  
Item 14, Environmental Impact  
State Board of Education, State of Idaho  
1455 N. Orchard Street  
Boise, Idaho 83706**

**Environmental Exposure**

The proposed changes to the licensed facility will have no additional effect on the exposure of the public to significant levels of RF radiation. The low output power of the translator combined with the type and height of the transmit antenna above the ground, will result in insignificant (well below the public exposure limit) RF radiation exposure. The site is located in an area that is not readily accessible by the general public and RF hazard warning signs are posted. Workers are instructed to turn off the transmitting equipment prior to performing any antenna work, these instructions are also posted at the site.
