

RADIO MARKET ANALYSIS
LEGEND COMMUNICATIONS OF WYOMING, LLC
KWOR/KKLX RADIO STATIONS
WORLAND, WYOMING
September 2007

TECHNICAL STATEMENT

1. This Technical Statement and attached exhibits were prepared on behalf of Legend Communications of Wyoming, LLC (“Legend”), proposed assignee of KWOR, 1340 kHz, and KKLX, Channel 241C2, Worland, Wyoming. Legend also has an attributable interest in stations KGCL, Channel 271C2, Ten Sleep, Wyoming¹; and KZMQ, 1140 kHz, and KZMQ-FM, Channel 262C, Greybull, Wyoming.² The 3.16 mV/m contours of KKLX, KZMQ-FM and the proposed KGCL (CP and application) overlap with one another and with the 5.0 mV/m contour of KWOR and KZMQ. This results in Legend having an attributable interest in three FM stations and two AM stations in the same market. None of these stations are located nor considered “home” in any Arbitron market. Therefore, a revised contour overlap analysis is necessary. Exhibit #1 is a map depicting the subject stations.

2. A study, therefore, has been conducted to determine if ownership of these facilities complies with §73.3555 of the Commission’s rules. The contours of KKLX, KZMQ, KZMQ-FM and KGCL will be used to define the market boundary, hereinafter referred to as the “Radio

1) There is a pending one-step upgrade for KGCL which is considered in this instant review.

2) Legend is also the licensee of KCGL, Channel 281C, Powell, Wyoming; KODI, 1400 kHz, and KTAG, Channel 250C, Cody, Wyoming; KBBS, 1450 kHz, and KLGW, Channel 225C1, Buffalo, Wyoming; KZZS, Channel 252C1, Story, Wyoming as depicted on Exhibit #1.

Legend is also the licensee of KGWY, Channel 264C1, Gillette, Wyoming and is the applicant for a new FM facility at Wright, Wyoming. Additionally, Legend has an attributable interest in the licensee of KAML-FM, Channel 245C1, and KIML, 1270 kHz, Gillette, Wyoming. These stations are so far removed that they are not shown on Exhibit #1. None of these stations have city grade overlap with KWOR or KKLX, therefore, they are not considered further.

Market". The study will determine the number of other commercial AM and FM stations that either have transmitter sites within, or provide coverage to, the radio market. Only those stations with transmitter sites within 92.0 kilometers will be considered as contributors to the market. No other station in which Legend has an interest will be considered, unless it is a subject station in the market under review.

3. Exhibit #2 is a depiction of the stations within, or providing service to, the Radio Market boundary. A total of eleven stations is depicted, including the five subject stations. Exhibit #3 is a tabulation of the stations in the Radio Market. The number of stations depicted falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At the fourteen and fewer stations level, common ownership or control of up to five stations, with no more than three in the same service, is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Based on Legend's interest in the above referenced stations, it is demonstrated herein that the proposed assignment of KWOR and KKLX to Legend is in compliance with the Commission's multiple ownership rules, as detailed in §73.3555 of the rules.

4. The foregoing technical statement was prepared on behalf of Legend Communications of Wyoming, LLC, by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the Commission's CDBS database. We assume no liability for errors or omissions in that database which may be adverse to the information contained herein.
