

MINOR CHANGE APPLICATION
PAMAL BROADCASTING, LTD
WAJZ (FM) RADIO STATION
CH 242A - 96.3 MHZ - 0.47 KW
VOORHEESVILLE, NEW YORK
September 2001

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Pamal Broadcasting Ltd. (PBL), licensee of station WAJZ, Channel 242A, Voorheesville, New York. PBL is proposing to make minor changes in the facilities of WAJZ by relocating the transmitter site and decreasing the effective radiated power.

PBL is proposing to locate WAJZ on an existing tower, as such, the Federal Aviation Administration has not been apprised of this proposal. The tower has been registered with the Commission and assigned ASR #1039975. It is noted that WAJZ does not meet the Commission's minimum distance separation requirements to WDCD-FM. As such, processing pursuant to §73.215 of the rules is requested (see Exhibit #A for details).

Due to the number of co-located or nearby FM facilities, the use of the Commission's RFR worksheets associated with FCC Form 301 could not be used to demonstrate compliance with the radio frequency radiation rules. As such, a study has been conducted to demonstrate the proposed WAJZ is in compliance with the Commission's RFR rules (see Exhibit #B for details). All remaining exhibits called for on FCC Form 301, Section III-B, are attached hereto. All documentation used to certify the information on the technical portion of Form 301 has been forwarded to the applicant and is available to the Commission upon request.
