**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Central Florida Educational Foundation, Inc. ("CFEF"), permittee of FM translator station W274BB, Channel 274D, Haines City, Florida. CFEF holds an outstanding permit authorizing a new FM translator (BNPFT-20030829AUB). This application seeks a license to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for the W274BB translator.

There are two special operating conditions/restrictions listed on the W274BB permit. The first condition states that CFEF will reduce the power of W274BB or cease operation to insure persons with access to the site are not exposed to radio frequency radiation levels above the limits. CFEF herein restates that it will, in cooperation with other tower users, reduce the power of W274BB or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

The second condition notes that FCC Form 350 must be on file before program test commences with the facilities authorized in the permit. This instant application is being submitted prior to commencement of operation. Based on the foregoing, it is believed all conditions have been satisfied.
