**CUMULUS LICENSING LLC**  
**KAYD-FM AUXILIARY RADIO STATION**  
**CH 269C3 - 101.7 MHZ - 0.11 kW**  
**SILSBEE, TEXAS**  
**July 2016**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Cumulus Licensing LLC (“Cumulus”), licensee of radio station KAYD-FM, Channel 269C3, Silsbee, Texas. Cumulus has an outstanding construction permit (BXPB-20151027AEE) to correct the geographic coordinates of the KAYD-FM auxiliary. Cumulus is filing this application for station license to cover the outstanding construction permit. The detailed calculation of the transmitter power output for KAYD-FM is attached as Exhibit A.

The outstanding construction permit has a single special operating condition or restriction. It states:

*“The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.”*

Cumulus is aware of its responsibility in this matter and pledges compliance. Based on the foregoing, it is believed that Cumulus is in compliance with the Commission’s rules and requests to operate KAYD-FM at 0.11 kilowatt.
