Directional Antenna Installation Certification

In compliance with section 73.316(c)(2)(vii) of the FCC Rules, and to satisfy condition #4 of the WTZB(FM) Construction Permit (BPH-20100121AAH), this is to certify that the ERI model LP-4C-DA directional antenna for Radio Station WTZB(FM) operating at 105.9 MHz and licensed to Englewood, FL has been erected according to design and installation instructions provided by the antenna manufacturer, Electronic Research, Incorporated (ERI) of Chandler, Indiana.

The installation was supervised by Randall L. Mullinax, Regional Engineer for Clear Channel Radio. Mr. Mullinax is a graduate of the Southern College of Technology with a degree in Electrical Engineering Technology, has been actively engaged in Broadcast Engineering for more than thirty-five years, and his works are a matter of record with the Federal Communications Commission.
