Marty,

Please see the attached report and maps. The short story is under the current rules you must stay on a STA. The new rules would allow 600 watts. The report goes into more detail. Please let me know if you have any questions.

Thanks,
Bruce

Thanks,
Bruce

Bruce:

Hey i ts qui et today! You di dn' t cal l
???

Three attachments.

2 maps

1 ruff write up.

After AM Revitalization and some
pushing and squeezing....

Marty can have 600 watts into his 39°
tower by the church.

Before that he has to stay on an STA or
STA dark.

Best Regards!

ET
