Engineers Declaration

March 20th 2012

Greetings,

This letter is to certify the installation of the SWR model # FMI10D/4-DA for the WRMO-FM construction permit (FCC File #BPH-20110805ABT Milbridge, Maine) was completed to the manufactures instructions. I, Stacey J. Brann personally supervised and participated in the assembly and mounting of the antenna system. Great care was taken to ensure the antenna was completed exactly as the blueprints and instructions outlined in the proof of performance provided (exhibit 7). I am familiar with the terms and conditions of the WRMO FM construction permit as granted by the commission. I have been a professional Broadcast Engineer for 20 years and have experience in all phases of broadcast engineering. I am the owner of Broadcast Engineering Services of Bangor Maine and have been providing engineering and consulting services for commercial broadcast stations for 20 years. I have a Bachelorette in Electrical Engineering from the University of Southern California and in addition have completed many courses at various institutions on the subject matter of Broadcast Engineering. I make these precededing statements under penalty of perjury to be true and accurate.

Sincerely

A handwritten signature in blue ink, appearing to read 'Stacey J. Brann', with a stylized flourish at the end.

Stacey J. Brann
