**CUMULUS LICENSING LLC**  
**KBAT (FM) RADIO STATION**  
**CH 227C1 - 93.3 MHZ - 100.0 KW**  
**MIDLAND, TEXAS**  
**March 2005**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of radio station KBAT, Channel 227C1, Midland, Texas. This instant application seeks to notify the Commission that Cumulus has replaced the antenna system associated with KBAT (one non-directional antenna substituted for another). Attached as Exhibit A is a calculation of the transmitter power output for KBAT, based on the replacement of the antenna system.

This application is being submitted without first obtaining a construction permit. We have, therefore, no specific conditions to address. However, Cumulus states that it will, in cooperation with other tower users, reduce the power of KBAT or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed that KBAT is operating in compliance with the Commission's rules.
