

Exhibit 36
Explanation of Circumstances Warranting Grant of STA

KAZH License, LLC (“KAZH License”), holds an outstanding construction permit from the Commission that authorizes KAZH License to construct primary digital UHF commercial television broadcasting station KAZH-DT on Channel 41 in Baytown, Texas (File No. BPCDT-19991101ADZ, granted on May 2, 2001, as extended by File Nos. BEPCDT-20020301AGD, granted on March 27, 2002; BEPCDT-20020830ACU, granted on February 4, 2003; BEPCDT-20060707AEN, granted on May 17, 2007; and BEPCDT-20071116ACY, granted on December 31, 2007). The Permit is scheduled to expire on May 18, 2008, and an application for further extension of the Permit was filed on March 19, 2008 (File No. BEPCDT-20080319ACW, accepted for filing on March 20, 2008).

KAZH License was granted a special temporary authorization (“STA”) to commence the digital operation of Station KAZH-DT with reduced facilities (File No. BDSTA-20021203ADS, granted on December 10, 2002, as extended by File Nos. BEDSTA-20030606ACU, granted August 12, 2003, BEDSTA-20040212AEE, granted March 3, 2004, BEDSTA-20040901AEP, granted September 28, 2004, BEDSTA-20050325AOR, granted April 21, 2005, BEDSTA-20051017ADN, granted December 1, 2005, and BEDSTA-20060530AMJ, granted September 12, 2007. The STA expired on November 18, 2007.¹

On behalf of KAZH License, we hereby respectfully request that the Commission grant a further extension of the STA, in order to enable Station KAZH-DT to continue to provide its current level of service to its community.

¹ KAZH License respectfully requests that its STA be extended retroactively, with an effective date of November 18, 2007. Due to uncertainty regarding the exact nature of the filing or filings that were required to be made in November 2007, counsel for KAZH License spoke with a senior Media Bureau attorney prior to November 18 regarding the filing requirements applicable to KAZH License. At that time, counsel was informed that KAZH License needed only to file an application to extend its outstanding digital construction permit, and KAZH License filed such an application in File No. BEPCDT-20071116ACY, granted December 31, 2007. In recent conversations with Media Bureau personnel, counsel for KAZH License has been advised that the instant STA extension request should have been filed in November 2007, despite prior guidance to the contrary. KAZH License regrets this apparent misunderstanding.
