

Changes Contained in This Amendment

Educational Media Foundation ("EMF") submits this amendment in response to an email from Mr. Robert Gates, Electronics Engineer, Media Bureau / Audio Division. In his email Mr. Gates points out that due to rounding the height of the tower, the antenna appears to be mounted higher than the top of the tower. This amendment changes the height above ground for the proposed antenna in order to correct this error.

Changes to the application are as follows:

1. Section III-A, Item 8: Antenna height above ground has been changed.
2. Section III-A, Item 12(a): Exhibit 12 has been updated.
