

Exhibit 33
Mountain Wireless, Inc.
§73.215 Compliance
Skowhegan, Maine

The proposed site does not meet the required §73.207 distance separation towards WBQI, channel 299, Bar Harbor, Maine or WVPS, Channel 300, Burlington, Vermont. The required distance between the stations can be seen on Exhibit 29 Page 1. The applicant is requesting the use of §73.215 contour protection. Figure 1 of this exhibit demonstrates there will be no prohibited overlap between the proposed parameters and WBQI or WVPS. The contours of WBQI are based on Maximum class B1 facilities. The contours of WVPS are based on Maximum Class C facilities.
