In re: Low Power Television Application of:
Philadelphia Television Network, Inc.
Channel 48, Philadelphia, PA.
File number BMPDTL-20100809AAA
Facility Id No.: 167606

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. WFMZ-TV, Philadelphia, PA. – BDRTCT-20090604ABI

In addition to the above interference problem, we found a discrepancy with the verification of the proposed facilities antenna registration number (ASRN) in connection to the antenna location, proposed facility coordinates and overall height above ground level (OTHAGL) of the antenna.

The proposed facility antenna registration number is 1231525 which should represent the location of the antenna at coordinates N 40-02-29.6 – W 75-14-11.5 and show the overall height of the antenna as 383.1 meters. The antenna registration search results of the proposed ASRN number reveal the following:

Specified Search							
Registration Number like 1231525							
	Registration Number	Status	File Number	Owner Name	Latitude/Longitude	Structure City/State	Overall Height Above Ground (AGL)
1	1231525	Terminated	A0231996	TriStar Communications, LLC	45-04-12.9N 092-53-42.3W	Grant, MN	58.8

You are hereby given the opportunity to file a minor amendment to resolve the specified interference problem and the antenna discrepancy within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh
Associate Chief
