Facility ID No. 173030  
St. Paul Bible College  
File No. 20100104ABC (Program Test Authority)  
File No. BLED-20100104AAR (License)

Dear Counsel:

This letter is in reference to KJZK's request for program test authority ("PTA"), File No. 20100104ABC, filed January 4, 2010, and the simultaneously filed application for license, BLED-20100104AAR, to cover Construction Permit BNPED-20071022BMK. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of KJZK's request for PTA reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BNPED-20071022BMK, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KJZK's pending license application. The authorized effective radiated power is 4.5 kilowatts (H&V) and the authorized transmitter power output is 3.13 kilowatts.

Sincerely,
