

RADIO MARKET ANALYSIS
CUMULUS LICENSING LLC
KGEE RADIO STATION
PECOS, TEXAS
November 2007

TECHNICAL STATEMENT

1. This statement and attached exhibits were prepared on behalf of Cumulus Licensing LLC (“Cumulus”). Cumulus is submitting an application to relocate station KGEE, Pecos, Texas, as such a Radio Market analysis is needed. While KGEE is not located in a metro county in any rated market, it is considered “home” to the Odessa-Midland, Texas market.¹ Cumulus is also the licensee of KBAT, Channel 260C1, Monahans, Texas; KMND, 1510 kHz, Midland, Texas; KNFM, Channel 222C, Midland, Texas; KZBT, Channel 227C1, Midland, Texas; KRIL, 1470 kHz, Odessa, Texas; and KODM, Channel 250C1, Odessa, Texas. KMND, KNFM, KZBT, KRIL and KODM are all licensed to communities in metro counties within the Odessa-Midland, Texas Arbitron/BIA Market. KBAT is considered “home” to the Odessa-Midland, Texas market. As a result, a hybrid ownership analysis is needed with respect to a rated market and a contour overlap review for stations not licensed to metro counties within a rated market.

ARBITRON/BIA MARKET REVIEW

2. As shown on Exhibit #1, there are twenty-nine AM and FM (commercial and non-commercial) stations listed in the Odessa-Midland, Texas Market (Market #188). Cumulus will be in control of five FM stations and two AM stations in the market. The number of stations

1) Cumulus has requested that KGEE no longer be considered “home” to the Odessa-Midland, Texas market. As this request was made less than two years ago, KGEE is considered part of the rated market for this instant review.

indicated falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules. At this level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. This combination of stations owned by Cumulus existed prior to the change in §73.3555 of the rules and, as such, is grandfathered.¹ Further, pursuant to Note 4, §73.3555, since the KGEE minor change will not increase the concentration of stations in the subject Arbitron market, it is believed that KGEE remains grandfathered under the Commission's ownership rules for rated markets.

REVISED CONTOUR OVERLAP ANALYSIS

3. As KGEE is licensed to a non-metro county, a contour overlap analysis has also been conducted for ownership compliance review. A map depicting the city grade contours of the seven subject stations is attached as Exhibit #2. As indicated, the proposed KGEE facility will not have city grade overlap with any of the other Cumulus stations in the Odessa-Midland, Texas market (nor any other Cumulus facility). As such, it is considered a stand-alone station, which is in compliance with the Commission's multiple ownership rules for a non-rated market.

4. Based on the above reviews, the ownership for rated markets remains unchanged as a result of this minor change application for station KGEE (the combination remains grandfathered) and KGEE is also in compliance with the revised contour overlap rules. Therefore, it is believed that this minor change application for KGEE does not cause a violation of the multiple ownership rules and is, therefore, in compliance with §73.1690(c)(7) of the rules.

1) Under the former contour overlap analysis rules, Cumulus was in compliance with the ownership rules.

5. The foregoing technical statement was prepared on behalf of Cumulus Licensing LLC by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. All data relating to AM and FM facilities in the relevant BIA/Arbitron market was determined using the BIA Financial Network, Inc. Media Access Pro, Version 4.2. BIA database. We assume no liability for errors or omissions in that database or program which may be adverse to the information contained herein.
