

TECHNICAL STATEMENT
WRLR (FM) Port Charlotte, FL
CLEAR CHANNEL BROADCASTING LICENSES, INC.
RADIO MULTIPLE OWNERSHIP ANALYSIS

This statement and the attached figures were prepared on behalf of Clear Channel Broadcasting Licenses, Inc. ("CCBL"), a licensee subsidiary of Clear Channel Communications, Inc. CCBL proposes to modify the facilities of WRLR(FM). A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership or time brokerage:

Table 1: Proposed Commonly Owned or Controlled Stations Studied

Call Sign	Facility_id	City	State
WCCF	28897	PUNTA GORDA	FL
WKII	35214	SOLANA	FL
WOLZ	13898	FORT MYERS	FL
WIKX	28899	CHARLOTTE HARBOR	FL
WSRZ-FM LIC	48673	CORAL COVE	FL
WSRZ-FM CP	48673	CORAL COVE	FL
WCKT	55755	LEHIGH ACERS	FL
WBTT	55756	NAPLES PARK	FL
WCVU	71594	SOLANA	FL
WBCG	82071	MURDOCK	FL
WRLR Prp	35213	PORT CHARLOTTE	FL

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), an ownership study has been prepared in accordance with the Federal Communications Commission's multiple ownership rules¹.

CCBL does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the proposed facility of WRLR(FM).

Radio Markets

The "radio market" applicable to common ownership of the subject stations is defined as the area encompassed by the mutually overlapping principal community contours of the proposed commonly owned stations. These mutually

¹ See 47 C.F.R. § 73.3555.

overlapping contours form four "radio markets", as shown in *Figure 1*, for analysis under the Commission's rules.

Radio Market "1" is defined by the mutually overlapping principal community contours of WBCG(FM), WIKX(FM), WRLR(FM)(PROP), WSRZ(FM)(CP), WCCF(AM), and WKII(AM) 4 FM and 2 AM

Radio Market "2" is defined by the mutually overlapping principal community contours of WBCG(FM), WCVU(FM), WIKX(FM), WRLR(FM)(PROP), WSRZ(FM)(LIC), WCCF(AM), and WKII(AM) 5 FM and 2 AM

Radio Market "3" is defined by the mutually overlapping principal community contours of WCVU(FM), WIKX(FM), WOLZ(FM), WRLR(FM)(PROP), WCCF(AM), and WKII(AM) 4 FM and 2 AM

Radio Market "4" is defined by the mutually overlapping principal community contours of WBTT(FM), WCKT(FM), WIKX(FM), WOLZ(FM), and WRLR(FM)(PROP) 5 FM.

Count of Stations in Defined Markets

The number of radio stations in a "radio market" is determined by counting the operating, commercial stations having principal community contours that overlap or intersect the principal community contours that define the radio market, plus the subject commonly owned or controlled stations.

In "radio markets" (1 - 3 inclusive) it was found that a count of stations that overlap the proposed WRLR(FM) contour provides for a sufficient count of stations to comply with 73.3555(a)(1) and thus provides for more simple analysis. As shown in *Figure 2* there are at least 30 stations that are not owned or controlled by Clear Channel Communications, Inc. or its licensee subsidiaries (except market defining stations) that overlap or intersect the proposed principal community contour of WRLR(FM).

In "radio market" 4 as shown in *Figure 3* there are at least 46 stations that are not owned or controlled by Clear Channel Communications, Inc., (except market defining stations under common control which are allowed to be added to station totals) or its licensee subsidiaries that overlap or intersect the proposed principal community contour of WRLR(FM).

Only known licensed, operating commercial stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 5 degrees of azimuth.

Based on the above, it is concluded that the proposed modifications comply with § 73.3555(a) of the FCC Rules.
