

## **MULTIPLE OWNERSHIP SHOWING**

The proposed assignee is currently the licensee of two FM radio stations (KKVM, Vail, CO and KZYR, Avon, CO). One station, KKVM overlaps the common contour of KSNO. Attached is Map #1 that shows the area of overlap.

There are at least eight (8) stations, not including the target station and stations already owned by the proposed assignee, that overlap the area of mutual overlap of the contours of the proposed assignee's existing station KKVM. These stations are: KDNK, KMTS, KRVG all of Glenwood Springs, CO; KLRY, KQSE both of Gypsum, CO; KPRE, KVJZ both of Vail, CO and KSKE, Eagle, CO. Attached is Map #2 that shows these areas of overlap.

According to FCC Rule Section 73.3555(a)(1)(iv), in a radio market with 14 or fewer full-power radio stations, a party may own up to three commercial radio stations in the same service. After the proposed transaction, the proposed assignee will own three FM stations in the market defined by the interim contour overlap and will not result in the proposed assignee having an interest in more than 50% of the full power radio stations in the market. Therefore, the proposed transaction satisfies the FCC's multiple ownership rules with respect to such defined market.
