Re: Eternity Records, LLC (ERL)
WKXG(AM), Greenwood, MS
Facility Identification Number: 65008
Special Temporary Authorization (STA)
BESTA-20160921AAA

Dear Mr. Pugh:

This is in reference to the request filed on September 21, 2016. ERL requests an extension of the STA granted on November 13, 2015, to operate with an emergency antenna from the licensed site due to a fire (resulting in the removal of the tower), and last modified on March 21, 2016, to operate with an emergency long wire antenna from the WGRM(AM) transmitter site due to loss of the licensed WKXG(AM) site.¹ In support of the request, ERL stated that it plans to complete an agreement shortly which will allow it to file the required FCC Form 301 application to propose a new permanent facility using the existing WGRM tower.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WKXG(AM) is licensed for ND operation on 1540 kHz with 1 kW day and 0.002 kW night.

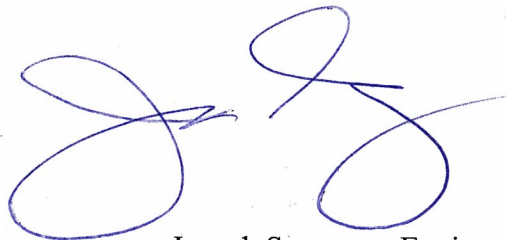

Accordingly, the request for STA IS HEREBY GRANTED and ERL may continue to operate with the following facilities:

Geographic coordinates	33° 32' 02" N, 90° 11' 42" W (NAD 1927)
Frequency	1540 KHz
Hours of operation	Day and Night
Operating power	Max 0.25 kW day, 0.001 kW night
Antenna type	135 foot horizontal long wire antenna
Overall height	16 feet AGL (4.9 meters)
Antenna Efficiency	Unknown

It will be necessary to further reduce power or cease operation if complaints of interference are received. ERL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. We anticipate that ERL will file an FCC Form 301 application before the expiration date shown below to show that substantial progress has been made.

This authority expires on **April 20, 2017**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.
