**February 2011**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Johnson Broadcasting Ventures, LTD ("JBV"), licensee of FM translator station W289BL, Channel 289D, Rocky Mount, North Carolina. JBV has a construction permit (BPFT-20100916ACO) to make minor changes in the W289BL facilities. JBV herein submits a license application to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for FM translator W289BL.

There are three special operating conditions/restrictions listed on the W289BL permit. The first condition states that, "Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file at the Commission, FCC Form 350, Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14." This instant application satisfies this condition.

The second condition states, "The permittee/licensee, in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radio frequency electromagnetic fields in excess of FCC guidelines." JBV recognizes its obligations under this condition.

The third condition states, "During installation of the antenna authorized herein, AM Station(s) listed below shall determine operating power by the indirect method. Upon completion of the installation, antenna impedance measurements on the AM antenna shall be made and, prior to, or simultaneous with, the filing of the application for license to cover this permit, the results submitted to the Commission (along with a tower sketch of the installation) in an FCC Form 302-AM application for the AM station to return to the direct method of power determination. WCPS (AM), Tarboro, NC 760 kHz."<sup>1</sup> JBV is submitting an application, FCC Form 302-AM, for station license for WCPS, Tarboro, North Carolina to return WCPS to direct measurement of power.<sup>2</sup>

Based on the foregoing, it is believed all conditions on the W289BL construction permit have been satisfied.

---

1) WCPS is co-owned by Johnson.

2) The FCC Form 302-AM application will also cover the outstanding permit for WCPS (BP-20100712ACW) to correct the geographic coordinates.
