In re: WAXY (AM), South Miami, FL
Facility Identification Number: 30837
Lincoln Financial Media Company of Florida
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed November 7, 2011, on behalf of Lincoln Financial Media Company of Florida ("LFMC"). LFMC requests further extension of the special temporary authority (STA) originally granted on December 23, 1981, and modified on May 17, 1990, to operate Station WAXY with increased power during nighttime hours to mitigate the effects of Cuban interference.¹ In support of the request for extension, LFMC states that Station WAXY continues to receive interference from the cochannel Cuban station.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WAXY may continue to operate with increased power not in excess of 25 kilowatts, daytime and nighttime, as necessary to overcome the effects of Cuban interference. Operation under this authority shall be conducted according to the revised directional antenna specifications issued on July 10, 1991. LFMC must continue to take monthly readings to ensure the accuracy of the operation. This authority is subject to termination upon reduction of power or cessation of operation by the Cuban operation, or upon Commission instruction to LFMC at which time WAXY must return to licensed operating specifications. WAXY must reduce power if interference complaints are received.

This authority expires on **June 27, 2012**.

Sincerely,

Charles N. Miller, Engineer
Audio Division
Media Bureau

cc: Lincoln Financial Media Company of Florida

¹ Station WAXY is licensed for operation on 790 kHz with 5 kilowatts, unlimited hours, employing different directional antenna patterns during daytime and nighttime hours (DA-2-U).
