To Whom It May Concern:

Re: Radio Station WTBK in Manchester, KY.

This is to certify that I have recently inspected the new antenna and transmission line installed at the transmitter site on Lucas Hill in Manchester. The installation appears to have been completed properly, pursuant to PSI instructions.

For more information, please refer to the Directional Antenna Manual provided with the antenna system by PSI. Also please see the report by Merideth General Surveys, Inc. This gives information about the pointing of the antenna.

A handwritten signature in black ink that reads "Roy H. Steck". The signature is written in a cursive, slightly slanted style.

Roy H. Steck, Engineer

FCC General Class Radio-Telephone operator license #331322155

Formerly First Class Radio-Telephone operator license.
