Vic-

I wanted to update you on the status of the NEPA project for your two AM towers in Jefferson County, Colorado. We have completed the TCNS and tribal obligations and the Form 620s have been submitted to the Colorado SHPO for their review. Once we receive their determination, which is likely to concur with our determination that no historic properties will be affected by the proposed action, we will be able to finish the project with the final report. However, I have decided to take an opportunity an another consulting firm and will not be able to finish the project and write the final report. Therefore, I am leaving the final report in the very capable hands of Melissa Valentine (who is copied on this email). She will be your contact for the duration of the project.

Thank you very much. Please let me or Melissa know if you have any questions. Thank you.

Amanda
