December 2007

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared in support of transfer of control applications filed by KLIF Lico, Inc., licensee of KLIF, 570 kHz, Dallas, Texas; KRBE Lico, Inc., licensee of KTCK, 1310 kHz, Dallas; KIKT¹, Channel 228A and KGVL, 1400 kHz, Greenville; KTDK, Channel 281C3, Sanger; and KKLF, 1700 kHz, Richardson, Texas; KPLX Lico, Inc., KPLX, Channel 258C, Fort Worth, Texas; and Texas Star Radio, Inc.,² licensee of KDBN, Channel 227C2, Haltom City, Texas.

2. KTCK, KLIF, KPLX, KTDK, KDBN and KKLF are each authorized in communities within metro counties in the Dallas-Fort Worth, Texas Arbitron Market. KGVL and KIKT are licensed to non-metro counties outside the Dallas-Forth Worth, Texas market and are not considered “home” to the market. Therefore, this review will verify compliance of commonly owned stations in both rated and non-rated markets.

¹ KIKT is presently licensed to a community in a non-metro county. There is also an outstanding construction permit to relocate and change its community of license of KIKT from Greenville, Texas to Cooper, Texas (BPH-20061005ADV). At its authorized CP site and new community, KIKT will remain a non-metro station.

² KLIF Lico, Inc.; KRBE Lico, Inc.; KPLX Lico, Inc. and Texas Star Radio, Inc., are all indirect wholly-owned subsidiaries of Cumulus Media Partners, LLC (“CMP”).

DALLAS-FORTH WORTH, TEXAS ARBITRON/BIA MARKET REVIEW

3. As shown on Exhibit #1, there are eighty-three AM and FM (commercial and non-commercial) stations listed in the Dallas-Forth Worth, Texas Arbitron Market. The proposed transferees would be in control of three FM and three AM stations in the market. The number of stations indicated falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. Therefore, the proposed transferees are in compliance in the Dallas-Forth Worth, Texas market.

REVISED CONTOUR OVERLAP ANALYSIS

4. Since KGVL and KIKT (license and permit) are non-metro stations, a study has been conducted to verify that the proposed transfer of control of these facilities is in compliance with the Commission's multiple ownership rules. The city grade contours of all the subject stations are shown on Exhibit #2. As noted, the locations of the city grade contours of the non-metro stations, in conjunction with the rated market stations, create two distinct radio markets requiring review. Market #1 consists of AM stations KGVL, KLIF, KTCK and KKLK and FM station KIKT (license). Market #2 consists of AM station KGVL and FM station KIKT (permit).

5. Since the contour of station KGVL is a subject station in each market, its contour will be used to determine the number of other stations in those markets to which the subject stations will be added. No stations with transmitters located more than 92.0 kilometers from the boundary of the common overlap of subject stations will be considered. Further, no other facility controlled by CMP will be considered as a market contributor, unless it is a subject station in the pertinent radio market under study.

6. Exhibit #3 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to the KGVV/Radio Market. A total of eleven stations are depicted. Exhibit #4 is a tabulation of the stations in Radio Market #1; a total of sixteen is shown when the five subject stations are added.³ The number of stations depicted falls in the fifteen to twenty-nine fewer stations tier of 73.3555(a)(1)(iii) of the Commission's rules. Therefore, the proposed transferees are in compliance in Market #1.

7. Exhibit #5 is a tabulation of the stations in Radio Market #2; a total of thirteen when the two subject stations are added.⁴ The number of stations in Markets #2 in the fourteen or fewer stations tier of 73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations, with no more than three in the same service, is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Therefore, the proposed transferees are in compliance in Market #2.

8. Based on the compliance shown in both the rated and non-rated markets, the proposed transfer of control is in compliance with the Commission's rules, pursuant to §73.3555, with regard to the markets reviewed.

9. The foregoing technical statement was prepared on behalf of KLIF Lico, Inc., KRBE Lico, Inc., KPLX Lico, Inc., and Texas Star Radio, Inc., by Graham Brock, Inc., Technical Consultants. All information contained herein is true and accurate to the best of our belief and

³ While there many are other stations contributing service to the market, they are not considered because the stations identified herein are sufficient to demonstrate compliance with the rules based on the number of stations which will be commonly-owned as a result of the proposed transaction.

⁴ See Footnote 3, *supra*.

knowledge. All data relating to AM and FM facilities in the relevant BIA/Arbitron market was determined using the BIA Financial Network, Inc. Media Access Pro, Version 4.2 BIA database. Technical data related to AM and FM facilities was extracted from the Commission's CDBS database. We assume no liability for errors or omissions in either database which may be adverse to the information contained herein.
