Mohammad:

The justification for the STA that should have been included in the request is as follows:

The station is required to resume operations no later than September 23, 2010. Although the plan was to resume operations with the facilities approved in August 2010 in BMPDTL 20100811ABG, the antenna necessary for that operation is late and has not yet been delivered, necessitating this temporary operation with the facilities specified in the STA request.

Thank you.
