

re: M193 UT 29 HENEFER SUMMIT COUNTY BNPTT20000828BIT

ENGINEERING EXHIBIT - INTERFERENCE ANALYSIS -SECTION III, EXHIBIT 6  
IN RE: Application for low power television broadcast station license, August, 2000 window  
Auction Number 81, engineering solution to separate this application from mutually  
exclusive group

#### 1. INTRODUCTION

Group: M193

Applicant: M193 UT 29 HENEFER SUMMIT COUNTY BNPTT20000828BIT

Conflicting applications having one or more overlapping protected/interfering contours per  
Public Notice DA-0129:

M193 UT 29	LOGAN	R & D MEDIA GROUP, INC./	BNPTTL20000831ECY -WITHDRAWN
M193 UT 29	PARK CITY	SUMMIT COUNTY	BNPTT20000828BDR
M193 UT 29	WOODLAND	SUMMIT COUNTY	BNPTT20000828BIM

#### 2. DISCUSSION

Although there are one or more overlapping protected v. interfering contours between this  
application and other applications as shown above, they were subjected to an analysis of  
potential interference which includes a Longley-Rice study in accordance with OET Bulletin  
69 of the actual predicted interference, incoming and outgoing, between this application  
and the identified conflicting applications within the same auction group. The findings  
are shown below.

#### 3. ANALYSIS

Interference caused by the Applicant's proposed facility to :

M193 UT 29	LOGAN	R & D MEDIA GROUP, INC./	BNPTTL20000831ECY
M193 UT 29	PARK CITY	SUMMIT COUNTY	BNPTT20000828BDR
M193 UT 29	WOODLAND	SUMMIT COUNTY	BNPTT20000828BIM

....0.0%

It is also our understanding that M193 UT 29 LOGAN R & D MEDIA GROUP, INC./  
BNPTTL20000831ECY is being withdrawn.

#### 4. CONCLUSION

No interference or interference to zero persons per OET Bulletin 69 is caused to the  
applicant's proposal or the other proposals shown above when the Longley-Rice study is  
used as part of the application. In the event interference were to be shown incoming to  
the applicant, it is believed to be insignificant and is acceptable to the applicant.  
Thus, this application is no longer mutually exclusive with any other in its auction  
group. Accordingly, it is requested that it be removed from the group and allowed to  
proceed forthwith to the permitting process.

There has been no payment or other consideration provided by either party in connection  
with this engineering solution and/or withdrawal.
