

AMENDED EXHIBIT 29

Engineering Exhibit

By this application, Cox Radio, Inc. ("Cox"), licensee of WCFB(FM), Daytona Beach, Florida, proposes the following modifications:

- (a) Correction of the geographic coordinates for WCFB(FM). This correction is necessary due to a survey of the WCFB(FM) antenna site which revealed that coordinates for the tower site are slightly different from what was recorded based on earlier methods of measurement.

The license for WCFB(FM) lists the following coordinates in NAD27:

28° 58' 55" North Latitude
81° 27' 18" West Longitude

The correct coordinates and the coordinates listed on the FCC Antenna Structure Registration (Registration No. 1019248), converted to NAD27, are as follows:

28° 58' 47" North Latitude
81° 27' 20" West Longitude

- (b) Replacement of WCFB(FM)'s current antenna with a change in antenna center of radiation of 3 meters above the currently authorized values.
