

Technical Statement
Application for Modification of Construction Permit
W230CM Facility ID 157070 Poughkeepsie, NY
April, 2017

The purpose of this application is to modify existing Construction Permit BMPFT-20160817AAZ for W230CM at Poughkeepsie, NY. The following summary lists the changes:

1. Change Transmitter Location.
2. Change Transmit Antenna.
3. Change Effective Radiated Power.

Discussion:

The proposed facility will continue to be classified as a fill-in translator for an HD channel of WPDH at Poughkeepsie, NY. The proposal is properly spaced to all other facilities with the exception of 2nd adjacent WKXP on channel 232 (94.3 MHz) at Kingston, NY and 3rd adjacent WBWZ on channel 227 (93.3 MHz) at New Paltz, NY. Waiver requests are provided at Exhibit 13A to prove no interference will be provided to the public.

The proposed facility will operate at 250 watts with a directional antenna at an existing remote communications site.
