Subject: RE: Two Digital Construction Permits - K25DM - Facility 7085  
Date: Thursday, January 02, 2014 2:41:48 PM

---

Ron: The station wishes to dismiss its flash cut application ( BDFCDTL-20120307AAX) as soon as possible so that it can prosecute its current minor change application (BMPDTL-20131204AMK). The station is anxious to construct its digital facility as soon as its minor change application is granted. Will this be sufficient to dismiss the pending flash cut application? Lee Peltzman

**Subject:** Two Digital Construction Permits - K25DM - Facility 7085

Mr. Lee Peltzman, Esq, contact representative for Station K25DM – Facility 7085 – Phoenix, AZ. -  
Licensee: Mako Communications, LLC

Our records show that the licensee has a granted digital displacement construction permit BDISDTL-20090609ABU proposing to displace from CH 25 to CH 18 Phoenix AZ. Expiration date 9/1/2015.

The licensee has filed a modification proposal BMPDTL-20131204AMX to modify the existing digital displacement construction permit. Please see construction permit as referenced below:

BMPDTL	20131204AMX	346	E	K25DM	7085	LD	ACCEPTED FOR FILING	12/05/2013
--------	-------------	-----	---	-------	------	----	---------------------	------------

BDISDTL 20090609ABU 346 E K25DM 7085 LD GRANTED 12/03/2010

In addition the licensee has a pending digital flash cut proposal BDFCDTL-20120307AAX. Please see construction permit as referenced below.

The licensee can only have one digital construction permit pending/granted. Please ask the licensee to determine which digital proposal they want to continue to pursue and file a written request to have the other construction permit that they do not want to pursue either dismissed or cancelled.

BDFCDTL	20120307AAX	346	E	K25DM	7085	LD	ACCEPTED FOR FILING	03/08/2012
---------	-------------	-----	---	-------	------	----	---------------------	------------
