

## EXHIBIT 4

### **Notification of Emergency Antenna Operation and Request for Special Temporary Authority**

NCE Station WSVH(FM), Savannah, GA (Facility ID 23926)

Pursuant to Section 73.1680 of the FCC's rules, Georgia Public Telecommunications Commission ("GPTC") provides notification of the use of an emergency antenna for noncommercial educational radio Station WSVH(FM), Savannah, Georgia, as needed to restore program service to the public following damage to the station's authorized antenna which rendered the licensed facility inoperable pending repairs. In addition, pursuant to Section 73.1635 of the Commission's rules, GPTC respectfully requests Special Temporary Authority ("STA") for continued use of the emergency antenna facility for a period of 120 days.

As explained in the attached Engineering Statement, the top-mount antenna for WSVH(FM)'s licensed facility operation was struck by lightning on October 15, 2014 and destroyed, temporarily knocking the station off-air. While GPTC pursues the necessary repairs to restore licensed operation over WSVH(FM), it has established a temporary, alternate site, reduced power and reduced height facility to provide on-going broadcast service to the local community. The emergency antenna operation commenced on October 23, 2014. The attached Engineering Statement and application provide the technical details for the emergency antenna/STA operation, and demonstrate that the proposed STA facility contours are completely encompassed by WSVH(FM)'s licensed facility contours.<sup>1</sup>

A grant of STA will serve the public interest because it will allow GPTC to maintain its existing noncommercial educational radio broadcast service for listeners in the local Savannah community despite the damage inflicted upon WSVH(FM)'s licensed facilities by weather conditions beyond its control. The proposed STA will also allow GPTC the time necessary to pursue the repairs needed to restore the station's licensed operation.

GPTC is a noncommercial educational licensee and operates WSVH(FM) on a noncommercial educational basis. This application is therefore exempt from FCC filing fee requirements pursuant to Section 1.1116 of the Commission's Rules, and the facility is exempt from FCC regulatory fees, pursuant to Section 1.1162 of the Rules.

---

<sup>1</sup> Please note that the WSVH(FM) auxiliary antenna facility, FCC File No. BXLED-20040128AGZ, is also unavailable for use and requires cancellation. GPTC will separately submit a formal cancellation request for this auxiliary license.
