

Exhibit 6
Engineering Statement

This exhibit is to support the ACME Television Licenses of Utah, LLC ("ACME") application for a UHF television translator to serve Springlen, UT operating on channel 51. Carbon County has applied for a television translator to server Helper, UT on channel 36. These two applications have been declared as Mutually Exclusive and are in auction group M490.

After discussion with Mr. Frank Brady of Carbon County both parties have agreed to accept and work together and resolve any interference issues that may occur by the grant of both of these facilities. A copy of the letters supporting this statement are in exhibit 6B of this application.

This cooperation is essential to provide terrain isolated rural viewers, the ability to receive the maximum amount of broadcast services, via free over the air television.
