

**MINOR CHANGE APPLICATION/  
CHANGE COMMUNITY OF LICENSE  
ALPINE BROADCASTING CORP., INC.  
WAVV (FM) RADIO STATION  
CH 266C1 - 101.1 MHZ - 100.0 KW  
NAPLES PARK, FLORIDA  
January 2007**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Alpine Broadcasting Corp., Inc. ("Alpine"), licensee of station WAVV, Channel 266C1, Marco, Florida. Alpine proposes to change the community of license of WAVV from Marco, Florida to Naples Park, Florida, using the one-step application procedure as outlined in MB Docket #05-210 (released November 29, 2006). WAVV will continue to operate at its existing site with its currently licensed facilities. However, during preparation of the instant application it was determined that the WAVV license coordinates were at variance with the Antenna Structure Registration coordinates, therefore, the coordinates of WAVV are being corrected herein.

As indicated on Exhibit A, the proposed change of community of license from Marco to Naples Park, Florida is mutually exclusive with the licensed WAVV site; Channel 266C1 meets the Commission's minimum distance separation requirements from the proposed/existing site; a city grade signal will be delivered over all of Naples Park; and, since there is no change proposed for the site or facilities for WAVV, there are no gain and loss issues. Therefore, this proposal meets the Commission's engineering requirements for a city of license change.

WAVV is proposing to implement this change at its existing tower site. As such, the Federal Aviation Administration was not apprised of this proposal. The tower on which WAVV is located has been registered with the Commission and assigned Antenna Structure Registration Number 1020484. All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to Alpine and is available to the Commission upon request.<sup>1</sup>
