

MORRIS

April 10, 2007

To Whom It May Concern:

The KEAG-FM auxiliary antenna, as authorized in BXPB-20030219ADR, was mounted on an existing tower (ASR 1063079) that is grounded. The tower is not base-insulated or detuned at the frequencies of AM station KHAR and/or KUDO. Therefore the requirement to notify the AM stations, which operate from a different tower (ASR 1039482), does not apply.

Sincerely,

Jay White, CSRE
