Re: WBUJ-LP, Miami Shores, FL  
Facility ID No. 192433  
Barry University  
BMPL-20160815AAJ

Dear Applicant:

The above-captioned application for a minor modification to a construction permit proposes to change channels from 258L1 to 254L1. The *Second Report & Order* in MM Docket 99-25 established the definition of a "minor change" as it applies to LPFM applications.<sup>1</sup> The Commission stated that minor changes of LPFM stations may include changes of frequencies to adjacent or IF frequencies or, upon a technical showing of reduced interference, to any frequency. The claim of interference from the authorized and currently unbuilt time share station, facility ID 194335, is insufficient to demonstrate reduced interference.<sup>2</sup> Therefore, the instant application specifying a non-adjacent channel change without an adequate technical showing of reduced interference violates Section 73.870(a)(1) of the Commission's Rules.<sup>3</sup>

In light of the above, application BMPL-20160815AAJ IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.<sup>4</sup>

Sincerely,

  
James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau

<sup>1</sup> See *In the Matter of Creation of a Low Power Radio Service*, Second Order on Reconsideration and Further Notice of Proposed Rulemaking, FCC 05-75, (rel. March 17, 2005).

<sup>2</sup> Operation of WBUJ-LP on channel 254L1 would place it in the interference zone of co-channel class C1 station WKGR thereby increasing interference.

<sup>3</sup> 47 C.F.R. § 73.870(a)(1).

<sup>4</sup> 47 C.F.R. § 0.283.
