

This is to certify that Equipment Performance Measurements have been made on these stations. KYNV, 95.5 MHz, Jamestown, ND. KQDJ-FM, 101.1 MHz. Valley City, ND. And KRVX, 103.1 MHz, Wembleton, ND. At a distance of 3.9 miles from the antennas. Outside of the blanketing contour to avoid receiver induced intermod products.

The measurements were made using a BK Precision Model 2610 spectrum analyzer.

This station was found to be in full compliance with the applicable portions of FCC Rules 73.1590 and 73.317.

Donald J. Brintnall
