In re: Catholic, Apostolic & Roman
Church in Puerto Rico
WKVM(AM)
Facility Identification Number: 8096
BL-RC1104FB

Dear Ms. Dortch:

On behalf of the Catholic, Apostolic & Roman Church in Puerto Rico, licensee of radio station WKVM(AM), San Juan, PR, Facility ID Num. 8096, pursuant to Section 73.1560(d) of the Commission's Rules, this is to advise that WKVM(AM) has been operating under low power conditions since September 14, 2011, due to a lightning strike that damaged the transmitting equipment. The station is currently operating at significantly reduced power, 5 kilowatts, using an auxiliary transmitter. Due to the extensive damage sustained and the necessary delay in obtaining reimbursement from our insurance policy, we will soon file a request to operate under an STA for an extended period, as it is now evident that the repair will take considerable time.

A separate copy of this signed letter is included in a pre-addressed and pre-stamped envelope. Please have this copy stamped as received by the FCC and returned to us for our records. Should there be any questions concerning this request, please communicate with us at the address shown below.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Alan Corales Valle".
