Mr. Victor Michael

K255CT, Paradise Valley, AZ  
BNPFT-20180418AAA

Thank you for your site drawing and brief describing the proposed installation of a new antenna for Translator K255CT on the same structure with existing directional antenna arrays for translator stations K241CS and K275CP

We feel that the vertical and horizontal spacings of these antenna arrays will not cause any significant effect to the directional characteristics of the existing radiation patterns.

This opinion carries no performance guarantee and is based solely on the data provided by Cedar Cove Broadcasting, Inc. and the experience of our sales engineering staff.

Michael W. Bach
