Exhibit 12 Page 4
Radio Assist Ministry, Inc.
Interference Area to KCJZ
Pleasanton, Texas

The Proposed translator is within the 60 dBu contour of upper second adjacent station KCJZ, channel 294. The KCJZ contour at the translator site is 85 dBu F(50,50). Using the ratio of 100:1 (translator to KCJZ) on the second adjacent channel, the population within the proposed translator 125 dBu contour is zero. Using the free space equation, the predicted interference area is expected to extend 62 meters from the antenna. The antenna is 85 meters above ground level, thus the interference area will never reach the ground. Therefore, the application is in compliance with the following: §74.1204 (d) "The provisions of this section concerning prohibited overlap will not apply where the area of such overlap lies entirely over water. In addition, an application otherwise precluded by this section will be accepted if it can be demonstrated that no actual interference will occur due to intervening terrain, lack of population or such other factors as may be applicable."

This map displays the radio reception contours for four stations in the San Antonio area. The map uses a coordinate system where the horizontal axis represents distance in kilometers (km) from 80 to 0 to 80, and the vertical axis represents distance in kilometers (km) from 0 to 80. The stations and their respective contours are:

- KRIO-FM (Blue):** Shows a large 60 dBu contour covering a wide area around San Antonio, and a smaller 40 dBu contour.
- KCJZ (Blue):** Shows a 60 dBu contour centered near San Antonio, and a smaller 40 dBu contour.
- KQQT (Red):** Shows a 60 dBu contour extending from the northeast towards the center, and a smaller 40 dBu contour.
- KTKO (Blue):** Shows a 60 dBu contour extending from the southeast towards the center, and a smaller 40 dBu contour.

Key locations marked on the map include San Antonio, New Braunfels, Seguin, Universal City, and various smaller towns and communities in the surrounding region. The map also includes a grid of latitude and longitude lines.
