Permit file number BMPED-20110831ACM
Directional Antenna Installation Azimuth

To Whom It May Concern,

I, Ronald R. Huot, do hereby certify that on January 24, 2012 under my direction we verified the alignment of the subject antennas to be within +/- 1 degree of an Azimuth of 110 Degrees & 220 Degrees off True North per the request of The Power Foundation of Greenville, South Carolina in accordance with Shively Labs WWQZ Proof of Performance Study. The antenna is on the communications tower located on Mt. Vision off Mountain Road in Hampden, MA.

The True North Azimuth was established by using Land Court Survey of adjoining property and adjusting for declination.
