

APPLICATION FOR STATION LICENSE
UNITY BROADCASTING, INC.
WLCS (FM) RADIO STATION
CH 252A - 98.3 MHZ - 1.6 KW
NORTH MUSKEGON, MICHIGAN
February 2003

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Unity Broadcasting, Inc. ("Unity"), licensee of radio station WLCS, Channel 252A, North Muskegon, Michigan. Unity herein submits an application for license to cover the outstanding construction permit that authorized minor changes to the WLCS's facilities (BPH-20021118ACL). The facility was constructed in accordance with the underlying permit and is being operated pursuant to automatic program test. Attached as Exhibit A is a calculation of the transmitter output power for WLCS.

There was a lone condition placed on the permit, in that Unity will reduce the power or cease operation, as necessary, to ensure that no one will be exposed to fields in excess of the Commission's guidelines. Unity affirms that it will comply with that condition.
