

Explanation of WGCE-CA Allocation

Based on the OET 69 analysis, WGCE-CA, as proposed to be modified herein, is predicted to cause objectionable interference only to low power station W26BZ, Victor, NY, File No. BLTTL-20000306AAM, Facility ID No. 74026. W26BZ is licensed to WBGT, LLC. The 100 percent owner of WBGT, LLC is Vision Communications, LLC. The President of Vision Communications, William Christian, also is the President and Managing Member of the instant applicant, Milachi Media, LLC. Following grant of this application and prior to the initiation of program tests, Mr. Christian will cause W26BZ to cease broadcasting and WBGT, LLC will notify the Commission when W26BZ no longer is operating. Once W26BZ ceases broadcasting, there will be no broadcast facilities predicted to receive objectionable interference from WGCE-CA, as modified. Accordingly, this application may be granted because all interference issues will be removed prior to the initiation of program tests by the modified WGCE-CA facility.
