**Amendment**

A minor modification to FM translator W285AM was filed on August 30, 2006, BPFT-20060830ACY, which included a channel change from CH 285 to CH 283.

The FCC Form 349, Section III-A, Engineering, Technical Specifications, Tech Box, No. 1 was inadvertently not changed to the new channel. This amendment hereby corrects the information contained in the Tech Box, No. 1 to read CH 283.

There are no other changes to the pending minor modification.
