

Exhibit 10

K09RP

False Pass

November 14, 2014

The overall height of the antenna and antenna supporting structure is 6.1 meters above the ground. The antenna and structure do not exceed the criteria requiring notification to be filed with the FAA.

The license coordinates place the station 3.5 miles north of the community on a remote 1300 foot mountain ridge. Records indicate the correct coordinates are 54 51' 23" N and 163 24' 44" W. The ground elevation of these coordinates is 9.1 meters.
