Statement Regarding KOAL Directional Antenna Installation

I, Michael Martin, certify that I was personally on-site during the entire installation of the KOAL directional Shively Labs antenna and supervised every aspect of the process. The antenna was installed pursuant to the manufacturer's instructions and oriented to the proper azimuth. I have supervised the installation of directional FM antennas for several other stations and am familiar with the Commission's regulations regarding directional FM antennas. I hold a General Radiotelephone Operator's Permit.

Signed,

A handwritten signature in blue ink that reads "Michael Martin". The signature is written in a cursive style.
