

## **Affidavit Certification and Qualifications of Supervising Engineer**

In support of FCC Form 302

WEQS, Sparta, WI, FCC File Number BMPED-20120131ABM

The facility specified in the underlying construction permit is constructed as permitted in the current construction permit FCC File Number BMPED-20120131ABM. I have overseen all aspects of the WEQS site and directional antenna assembly and installation. I certify that the transmission systems and antenna systems are constructed as permitted and specified in the proof-of-performance and the manufacturer's instructions. The ERI-Electronic Research, Inc. - Model LPX-1E-DA (ERI Project Number 29361/1) directional antenna system was installed exactly as ERI specified and the antenna orientation as specified by FCC permit and the manufacturer's instructions was measured and verified by a Licensed Professional Surveyor in the State of Wisconsin. Successful equipment tests occurred on the morning of March 7, 2012. The surveyor's certification is attached in an exhibit.

I certify, under penalty of perjury that I am a SBE Certified Professional Broadcast Engineer and am familiar with all aspects of the FCC regulations that concern this project. My credentials are a matter of record with the Federal Communications Commission.
